Experience

Ferrero Switzerland & Austria

Aug. 2021 – Oct. 2021

Intern (Full time)

- Creation of a **security add-in** in outlook to avoid employees sending sensitive emails to wrong recipients
- Optimized many processes that have been done manually by adding automatized controls using **excel macros** and/or **VBA**
- Resolution of IDocs in **SAP**

World-Direct

Jul. 2022 – Oct. 2022

Intern (Full time)

- **Implemented .Net6 applications with Angular and .NET Blazor frontends. Created pipelines for Continous Deployment** using Azure DevOps.
- Dockerized applications, built pipelines that publish the Docker images to Harbour, which are then released using **Kubernetes (Rancher)** to offer scalability and availability.

University of Innsbruck

Mar. 2020 – Present

Research Assistant (Part time)

- **Implemented several incentive systems to increase user participation** at the CodeAbility Project. These incentives include for example like buttons, number of views, number of downloads etc.
- Implemented an **achievement system** which improves user participation by showing them **quests, progress bars and badges**

Projects

Driving School Comparison Platform

.Net, Angular, AWS, Selenium, Junit

- Developed a driving school comparison platform, where people can filter drivingschools by: price, location, licenses and cars
- <https://fahrschul-preisvergleich.link/>

Skills

DevOps: Docker, GitLab CI

Back-end: Java, .Net

Front-end: Angular

Security: Sql injections, XSS and others

Other: Git, AWS Lightsail

Language: German (Native), English (Fluent C1), Spanish (Conversational B2), French (Basic A2)
