French	**B1**

— DRIVING LICENSE

Skills

— TECHNICAL SKILLS
Python	
Angular	
SQL	
Spring	
Docker	
JHipster	

Achievements

TERMINAL C1 Challenge, Place 46 out of 15339, February 2018

This challenge is about a board game for which each player has to design an
algorithm to play the game against other algorithms. I used probability theory in order to make my algorithm responsive to the opponent's actions. Programming language used: Python.

Volunteering

01/2016 — PRESENT   RUM, AUSTRIA
Instructor
Taekwondo Center Rum

Awards

Dean's List
University of Innsbruck
